

Doaa Amer Ahmed

Frontend Developer | CS & AI Student

About Me

I am a second-year Computer Science and Artificial Intelligence student with a passion for frontend development. I combine creativity and technical skills to build user-friendly, responsive websites, aiming to deliver engaging and visually appealing digital experiences.

Skills

- C Programming
- HTML
- CSS
- Python

Projects

Aranzo – E-commerce Website Template

A modern and responsive e-commerce website for fashion and lifestyle products. Includes a fixed header, hero banner, product categories, featured product grid, blog section, and footer with contact info and social links.

Technologies: HTML, CSS, JavaScript
